

# Skyline Cedar — Patina

## Skyline Collection

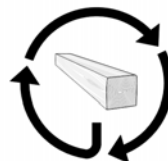

## Product Information

Impervious to the elements, Cedar makes an ideal material for New York City's rooftop water towers. A cool, silver sheen develops on the surface over years of exposure to wind, rain, and sun. Our vintage Cedar exhibits this organic patina in a range of brilliant to muted grays, with dark band marks from the tank's construction.

## Source

Reclaimed from NYC rooftop water towers, landmarks of the iconic NYC skyline.

## Impact

Historic material re-use and local manufacturing support a circular economy and reduces a building project's carbon footprint.

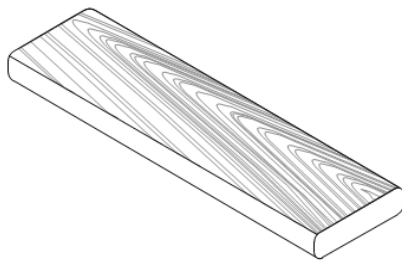

### Skyline Collection

#### SELECT YOUR SPECS

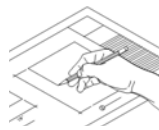

Profile	Thickness	Width	Length
Surfaced 3 Sides	3/4"	1 1/2"	2' - 8'
	1"	2 1/2"	
	1 1/2"	3 1/2"	
	2"	4 1/2"	

#### Common Spec\*

Surfaced 3 Sides | 1 1/2" Thickness | 4 1/2" Width | 2' - 8' Lengths

SURFACED 3 SIDES

#### CUSTOMIZATION

Go beyond the standards to create custom specifications including dimension, finish, and profile.

#### SUPPORT

We provide detailed shop drawings and installation guides customized to each project.

### Case Study

The 20,000 sf rooftop garden at Vice HQ in Brooklyn includes Skyline Cedar cladding and planters. Locally sourced and custom milled for this project, the wood's cool gray tones and marks from the water tower's steel bands celebrate the material's previous life. Now, the Cedar has a renewed purpose as it returns to New York City's iconic skyline.
