

# Black Locust — Natural

## Industry Collection

### Product Information

Black Locust offers the density and weather resistance of tropical hardwoods in a material that is harvested both sustainably and locally. Our Black Locust is sealed for exterior compatibility, allowing its desirable silver patina to develop naturally with exposure.

### Source

Harvested from Northeast forests in coordination with sustainable management plans that support long-term forest health & biodiversity.

### Impact

Black Locust from regenerative forestry practices in regional working forests is a sustainable local alternative to tropical hardwoods.
