

Black Locust — Natural Watershed Collection

Product Information

Black Locust offers the density and weather resistance of tropical hardwoods in a material that is harvested both sustainably and locally. Our Black Locust is sealed for additional longevity while allowing its silver patina to develop naturally.

Source

Harvested from Northeast forests in coordination with sustainable management plans that support long-term forest health & biodiversity.

Impact

Black Locust from regenerative forestry practices in regional working forests is a sustainable local alternative to tropical hardwoods.

Black Locust — Natural
Watershed Collection

Decking & Cladding

SELECT YOUR SPECS

Format	Construction	Profile	Thickness	Width	Length
Decking	Solid	Double Groove	3/4"	3-1/2"	4' - 10'
Wall + Ceiling Cladding		Eased 4 Edges	7/8"	5-1/2"	
		Tongue & Groove			

Common Spec*
Decking | Solid | Eased 4 Edges | 7/8" Thickness | 3-1/2" Width | 4'- 10' Lengths

DOUBLE GROOVE

Made from a single piece of wood for use with blind or hidden fasteners.

EASED 4 EDGES

Made from a single piece of wood. Honest, true, and long-lasting.

TONGUE & GROOVE

Made from a single piece of wood. Honest, true, and long-lasting.

FINISH
We apply green finishes by hand to bring out the natural beauty of wood with added durability and easy maintenance.

CUSTOMIZATION
Go beyond the standards to create custom specifications including dimension, finish, and profile.

PATTERNS
We offer a variety of patterns such as chevron and herringbone, tailored to suit the dimensions of each room.

SUPPORT
We are part of your project team, working collaboratively before and after the order arrives on site to ensure smooth project delivery.

MATERIAL PROGRESSION
Black Locust will mature into a gray within the first few months after installation, eventually developing a brilliant silver patina over time. Color changes will depend on exposure conditions.
