

Heart Pine – Natural

Industry Collection

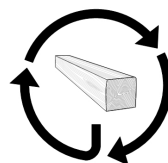

Product Information

Towering Longleaf Pines once yielded the dense beams that were used to build America. Today, the finest examples of this old-growth wood are available only through reclamation. Our warm Natural finish gives a hand-oiled look to the glowing, yellow-to-saffron tones and tight, vertical grain of the heartwood.

Source

Reclaimed from 19th-century heavy timber industrial structures in the Northeast.

Impact

Historic material re-use and local manufacturing support a circular economy and reduces a building project's carbon footprint.

		Hand Eased	1-1/4"		

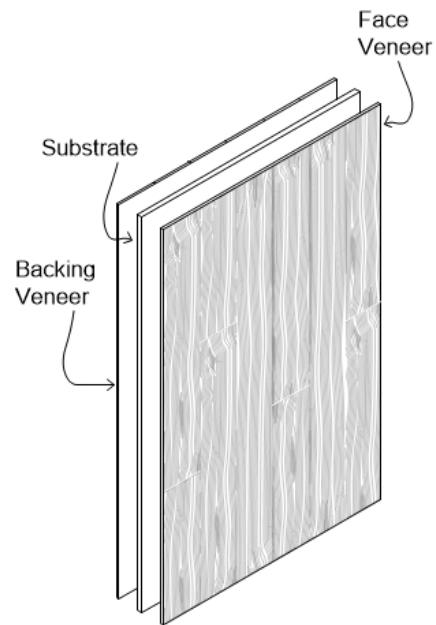

Common Spec*

Solid Panel | FSC® Plywood Substrate | Hand Eased Edge | 1-1/4" Thickness | 30" Width x 96" Length

SOLID PANEL

Shop-fabricated panel made of solid wood planks fastened to a substrate for ease of installation.

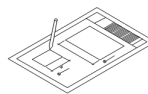

VENEERED PANEL

Balanced veneer panel construction that provides a seamless surface with versatility and ease of installation.

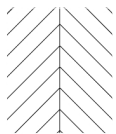

FINISH

We apply green finishes by hand to bring out the natural beauty of wood with added durability and easy maintenance.

SHOP DRAWINGS

We provide detailed shop drawings and installation guides customized to each project.

LAYOUT

Our panels are available in custom patterns, veneer matches, edge profiles, sizes, and shapes.

SUPPORT

We are part of your project team, working collaboratively before and after the order arrives on site to ensure smooth project delivery.
