

American Chestnut — Natural Countryside Collection

Product Information

This treasured species was used extensively for the construction of agricultural structures until the 20th century. Today, old-growth American Chestnut is only available through reclamation. Our warm Natural finish accentuates the coffee tones, rippling grain, and trademark wormholes characteristic of this refined hardwood.

Source

Reclaimed hardwoods from pre-industrial timber-frame structures throughout the Northeast.

Impact

Historic material re-use and local manufacturing support a circular economy and reduces a building project's carbon footprint.

American Chestnut – Natural

Countryside Collection

Solid Wood Elements

SELECT YOUR SPECS

Format	Profile	Thickness	Element Size & Shape	Element Cutout
