

Black Locust – Natural Watershed Collection

Product Information

Black Locust offers the density and weather resistance of tropical hardwoods in a material that is harvested both sustainably and locally. Our Black Locust is sealed for additional longevity while allowing its silver patina to develop naturally.

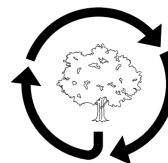

Source

Harvested from Northeast forests in coordination with sustainable management plans that support long-term forest health & biodiversity.

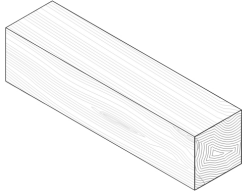

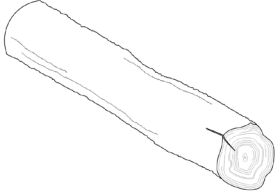

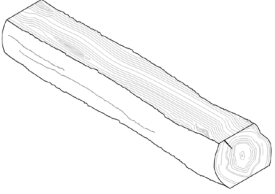

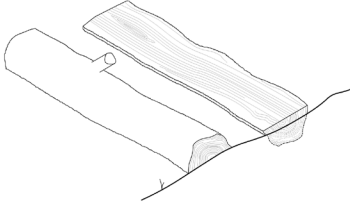

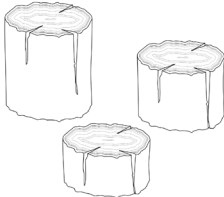

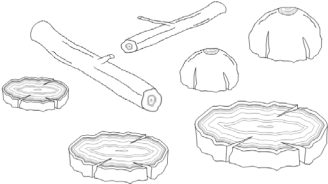

Impact

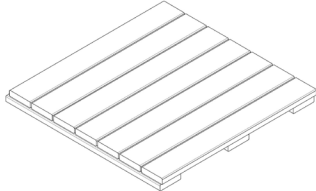

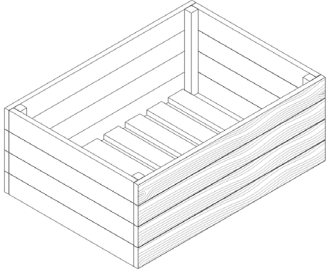

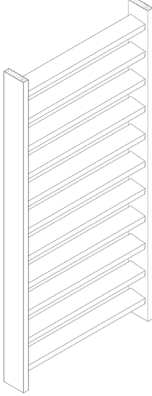

Black Locust from regenerative forestry practices in regional working forests is a sustainable local alternative to tropical hardwoods.

Black Locust – Natural
Watershed Collection

Landscape Element	Description	Dimensions
 <p>SQUARED</p>	<p>Landscape timber sawn square</p> <p>Flexible use for loose or fixed applications</p>	<p>Custom</p> <p>Up to 10' Lengths</p>
 <p>FULL-ROUND</p>	<p>Natural log component</p> <p>Hand de-barked, sanded, and edge-beveled on ends</p> <p>Flexible use for loose or fixed applications</p>	<p>8" - 14" Diameter</p> <p>Up to 10' Lengths</p>
 <p>FLAT-TOP</p>	<p>Natural log sawn to two flat sides</p> <p>Hand de-barked, sanded, and edge-beveled on ends</p> <p>Flexible use for loose or fixed applications</p>	<p>14" - 20" Diameter</p> <p>Up to 10' Lengths</p>

Landscape Element	Description	Dimensions
 <p>HALF-ROUND</p>	<p>Natural log component sawn in half</p> <p>Hand de-barked, sanded, and edge-beveled on ends</p> <p>Flexible use for loose or fixed applications</p>	<p>8" - 14" Diameter</p> <p>Up to 10' Lengths</p>
 <p>TRUNK SECTIONS</p>	<p>Natural log trimmed to length</p> <p>Hand de-barked, sanded, and edge-beveled on ends</p> <p>Flexible use for loose or fixed applications</p>	<p>8" - 14" Diameter</p> <p>1' - 3' Lengths</p>
 <p>FLOTSAM & JETSAM</p>	<p>Small dimension sections of squared and round timber</p> <p>Hand de-barked, sanded, and edge-beveled on ends</p>	<p>Variable</p>
