

# Heart Pine – Natural

## Industry Collection

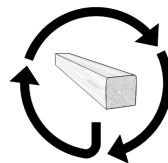

## Product Information

Towering Longleaf Pines once yielded the dense beams that were used to build America. Today, the finest examples of this old-growth wood are available only through reclamation. Our warm Natural finish gives a hand-oiled look to the glowing, yellow-to-saffron tones and tight, vertical grain of the heartwood.

## Source

Reclaimed from 19th-century heavy timber industrial structures in the Northeast.

## Impact

Historic material re-use and local manufacturing support a circular economy and reduces a building project's carbon footprint.

### SELECT YOUR SPECS

Format	Construction	Profile	Edge	Thickness	Width	Length
Flooring	Solid	Tongue & Groove	Square Edge	3/4"	4", 5", 6" Mixed	2' - 7'
Wall + Ceiling Cladding	2-Layer Engineered 3-Layer Engineered	Surfaced 4 Sides	Micro Bevel Hand Eased		Uniform (from 3" - 6")	2' -12' 7' -12'

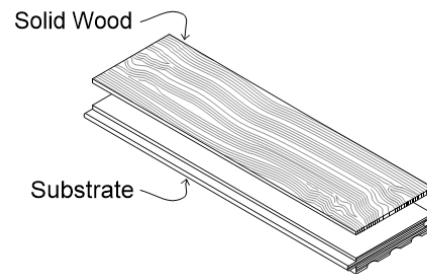

### Common Spec\*

Flooring | Solid | Tongue & Groove | Micro Bevel | 3/4" Thickness | 4", 5", 6" Mixed Width | 2' - 12' Lengths

SOLID WOOD

Made from a single piece of wood. Honest, true, and long-lasting.

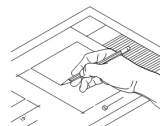

2-LAYER ENGINEERED

Top layer of solid wood bonded to an FSC® plywood substrate.

### FINISH

We apply green finishes by hand to bring out the natural beauty of wood with added durability and easy maintenance.

### CUSTOMIZATION

Go beyond the standards to create custom specifications including dimension, finish, and profile.

### PATTERNS

We offer a variety of patterns such as chevron and herringbone, tailored to suit the dimensions of each room.

### SUPPORT

We are part of your project team, working collaboratively before and after the order arrives on site to ensure smooth project delivery.
