

# Heart Pine – Natural

## Industry Collection

## Product Information

Towering Longleaf Pines once yielded the dense beams that were used to build America. Today, the finest examples of this old-growth wood are available only through reclamation. Our warm Natural finish gives a hand-oiled look to the glowing, yellow-to-saffron tones and tight, vertical grain of the heartwood.

## Source

Reclaimed from 19th-century heavy timber industrial structures in the Northeast.

## Impact

Historic material re-use and local manufacturing support a circular economy and reduces a building project's carbon footprint.
