

Heart Pine – White Wash

Industry Collection

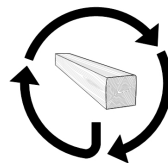

Product Information

Reclaimed Heart Pine comes from trees that grew slowly over centuries, yielding timbers with a density ideal for flooring, and a formal, straight grain. Our White Wash finish softens the amber tones while preserving the high-contrast grain figure.

Source

Reclaimed from 19th-century heavy timber industrial structures in the Northeast.

Impact

Historic material re-use and local manufacturing support a circular economy and reduces a building project's carbon footprint.
