

Skyline Cedar — Natural

Skyline Collection

Product Information

Refacing our vintage Cedar water tower staves gives them a fresh surface and a modern look. Pale, blonde tones, darkened pin knots, and a dense, flowing grain are revealed from beneath the patina. Mottled gray areas of oxidation result from contact with water and offer indications of its past life.

Source

Reclaimed from NYC rooftop water towers, landmarks of the iconic NYC skyline.

Impact

Historic material re-use and local manufacturing support a circular economy and reduces a building project's carbon footprint.
