

Skyline Cedar — Patina

Skyline Collection

Product Information

Impervious to the elements, Cedar makes an ideal material for New York City's rooftop water towers. A cool, silver sheen develops on the surface over years of exposure to wind, rain, and sun. Our vintage Cedar exhibits this organic patina in a range of brilliant to muted grays, with dark band marks from the tank's construction.

Source

Reclaimed from NYC rooftop water towers, landmarks of the iconic NYC skyline.

Impact

Historic material re-use and local manufacturing support a circular economy and reduces a building project's carbon footprint.
