

# Skyline Cedar — Shou Sugi Ban Monokuro

## Skyline Collection

### Product Information

To achieve its eye-catching, high-contrast finish, each reclaimed Cedar board is meticulously refaced, charred, brushed, then rubbed with a white pigment to bring out its grain. We call this contemporary adaptation of the traditional Japanese Shou Sugi Ban charring technique “monokuro,” Japanese for “monochrome.”

### Source

Reclaimed from NYC rooftop water towers, landmarks of the iconic NYC skyline.

### Impact

Historic material re-use and local manufacturing support a circular economy and reduces a building project’s carbon footprint.
