

Thermally Modified Oak— Slate

Watershed Collection

Product Information

Oak transformed to elegantly meet the demands of exterior applications. The thermal modification process uses only heat and steam to achieve increased durability and longevity, requiring no chemicals. Our Slate finish underscores the Oak's natural hues, quickly maturing into a brilliant silver. This wood is equal parts beautiful, sustainable, and hard-wearing.

Source

Harvested from Northeast forests in coordination with sustainable management plans that support long-term forest health & biodiversity.

Impact

Timber from regenerative forestry practices in local forests is a sustainable alternative to tropical hardwoods.

Straight Tile | Eased 4 Edges | 1-1/2" Thickness | 2'- 1-5/8" x 2'- 1-5/8"

STRAIGHT TILE

HERRINGBONE TILE

Made from 3/4" x 3-1/2" standard boards, eased on four edges.

Made from 3/4" x 3-1/2" standard boards, eased on four edges. Allows for multiple layouts, inquire for more details.

FINISH
 We apply green finishes by hand to bring out the natural beauty of wood with added durability and easy maintenance.

CUSTOMIZATION
 Go beyond the standards to create custom specifications including dimension, finish, and profile.

PATTERNS
 We offer a variety of patterns such as chevron and herringbone, tailored to suit the dimensions of each room.

SUPPORT
 We are part of your project team, working collaboratively before and after the order arrives on site to ensure smooth project delivery.

MATERIAL PROGRESSION

Our Slate finish underscores and expedites the natural graying of the wood over time, maturing from its initial brown into a brilliant silver patina. Designed to achieve a weathered look with unmatched authenticity and minimal maintenance.
